Lab Pack Certification

Page 2 of 2

_____ Soft Hammer Waste - A soft hammer certification and demonstration has been prepared in accordance with 40 CFR 268.8 and duly filed with the EPA Regional Administrator and is attached for all soft hammer wastes found in the lab packs covered by this certification. No treatment standards exist for the above referenced waste(s) and therefore it has been determined through a good faith effort, that the practically available technology providing the greatest environmental benefit, is incineration prior to burial. I believe that the information submitted is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.
